

HYGIENE GUARANTEE FOR YOUR MEETING. MORE SPACE IN THE ROOM!

LINDNER
HOTELS & RESORTS
me and all hotels

Many things are indeed best considered, experienced and often also noted from afar! In our function and conference rooms you will still have enough space to see screens, projections or speakers AND you have significantly more space at the table to distribute papers and also to keep all snacks & beverages in view.

■ Seal of hygiene

At the start of the event our guests in the meeting room shall find all surfaces cleaned and disinfected. The room is sealed and all moderation instruments such as microphones or remote controls are particularly looked after.

■ Disinfectant options

We have provided your participants with sufficient disinfectant dispensers across the hotel.

■ Face masks

Our staff are wearing a face mask for your and our protection. Upon request we will get these ready for your participants too - help us and wear a mask in all public areas too.

■ Coffee breaks

We will ensure that our guests have enough space available during breaks. Your participants have their own coffee break room or a defined area.

■ Catering

Our entire range of snacks and beverages is prepared and served under the applicable hygiene standards.

■ Briefing

Our staff are extensively trained in and briefed on all points of hygiene. In doing so we teach them daily about current developments and possible changes.

■ Documentation

All the above mentioned measures are reviewed and documented on an ongoing basis.

■ Currently

The applicable measures and processes in the hotels are continuously being updated and adapted to scientific findings.

We take care of it for you!

Focus on the important stuff: Your event!
